mathematics academic dictionaries and encyclopedias

May 16th, 2020 - a year of ups and downs for mathematics 1994 began with the awareness of a serious gap in andrew wiles s proof of fermat s last theorem in june 1993

wiles a princeton university mathematician had claimed a proof by relating the problem to a deep conjecture in algebraic number theory of pierre de fermat s famous 350 year old assertion that $x^n + y^n = z^n$ has no solutions for which x, y, z are positive integers

'book reviews alexander bogomolny

May 11th, 2020 - more reviews t apostol a century of calculus there are many conversations mittee meetings etc today about the modernization of the undergraduate calculus course but all too often the attack on the problem falls short of being prehensive so begins a 1958 article bringing calculus up to date amm 65 1958 pp 81 90 by m e munroe too young at the time to be interested in'
