April 15th, 2020 - are
there objects that are
thin in the sense that

**their existence does not
make a substantial
demand on the world
frege famously thought
so he claimed that the
equinumerosity of the
knives and the forks**

**suffices for there to be
objects such as the
number of knives and
the number of forks and
for these objects to be
identical the idea of thin
objects holds great**

philosophical promise'

**'thin objects an
abstractionist account
by Øystein**

May 4th, 2020 - at the
core of linnebo s

preferred abstractionist
account of thin objects are
two ideas he attributes to
Frege that being a possible
referent of a singular term
suffices for objecthood p
25 emphasis in original

and that singular
reference can be
explained in terms of the
concept of a criterion of
identity p 22'
