theme

April 19th, 2020 - photoviz
visualizing information
through photography by
nicholas felton available on
images alone are no longer
enough felton calls it
visualization done with
photography or based on
photography meaning
visualization created without
layers of abstraction because
every data point in an image
is really just a photon
hitting the camera
sensor''photoviz visualizing
information through
photography

May 10th, 2020 - insightful
information is being
municated by making a single
image out of several
different shots or using a 3d
perspective the work featured
in fotoviz to cite only a few
pelling examples makes
invisible wi fi fields
visible allows airport flight
activity from a full day to
appear as if it were
happening at once and
illustrates the average
selfietaking behavior of an
entire city''bio c v mark
