why do flight times differ between traveling east versus

June 2nd, 2020 - opposite flying west some of this is made up for when flying at the latitudes of west to east jet streams when travelling east so the actual flight time going east under those conditions will be shorter even though you arrive at a later time'

'is jet lag worse when flying east or west lonely planet

June 2nd, 2020 - there s also how much north south versus east west your route is going for example i often find flights going from say hong kong to new zealand is less jet lag inducing than a similar length of flight from europe to japan because more of the flight time is taken up by going north south and thus you re crossing fewer time zones''flying north south east and west arctic to the sahara

June 2nd, 2020 - it s also the remarkable tale of how reece and his wife nancy sought to keep his dream of flying alive through the years from the freezing isolated north pole to the heat and heart of africa flying north south east and west takes you to every direction on the pass and leads you to the adventure of a lifetime'
