the measures developed to
fight the plague are still
used today the world
experienced two subsequent
plague pandemics smallpox
is another epidemic disease
that has existed in
munities for centuries but
it has a unique place in*

the history of epidemics as
the only infectious disease
to be totally eradicated
from all human populations'
'plague of cyprian

June 5th, 2020 - the plague
of cyprian was a pandemic
that afflicted the roman
empire about from ad 249 to
262 the plague is thought
to have caused widespread
manpower shortages for food
production and the roman
army severely weakening the
empire during the crisis of
the third century its
modern name memorates st
cyprian bishop of carthage
an early christian writer

*who witnessed and described
the plague'*

'lessons from the history
of quarantine from plague
to

June 1st, 2020 - organized
institutional responses to
disease control began
during the plague epidemic
of 1347-1352 the plague was
initially spread by sailors
rats and cargo arriving in
sicily from the eastern
mediterranean 6-7 it
quickly spread throughout
italy decimating the
populations of powerful
city states like florence
venice and genoa the

pestilence then moved from
ports in italy to'

'list of epidemics

June 6th, 2020 - this is a
list of the biggest known
epidemics including
pandemics caused by an
infectious disease
widespread non municable
diseases such as
cardiovascular disease and
cancer are not included an
epidemic is the rapid
spread of disease to a
large number of people in a
given population within a
short period of time for
example in meningococcal
infections an attack rate

in excess of 15'' **a brief
history of epidemic and
pestilential diseases**

May 22nd, 2020 - the year
1648 appears to have been
less sickly in london but
in the south of europe
malignant diseases were the
harbin gers of the plague
which in 1649 carried off
200 000 people in the
southern provinces of spain
in ireland and shropshire
the plague prevailed in the
same year and a fatal fever
in france the small pox was
epidemic in boston'
