way to improve your coding skills'  
**'java why we need to return 0 when  
parator pare**

April 23rd, 2020 - when you are sorting  
1 and 0 essentially have a very similar  
impact on the ordering of the sorted  
list as items where the pareto evaluate  
to 0 will just be grouped together you  
would practically use this parison in  
other scenarios such as where you may  
not want to duplicate the adding of  
plex objects to a list yes you could  
also achieve this scenario through the  
use of a set' **'parison operators in java  
6 different parison**

June 5th, 2020 - in java there are  
several operators that are used to  
manipulate variables it includes  
arithmetic operators bitwise operators  
parison operators logical operators
