have some CSV raw data After i used text
to column in the date column there are one
or two converted in text format Excel
shows it as Text Date with 2 Digit Year
looks like dd mm yy Is there any macro
that can convert these ones into date
format like dd mm yyyy'*

**'sql Export data to Excel file using SSIS
Stack Overflow**

*May 2nd, 2020 - Drop table SheetName
doesn t delete the sheet instead it just
deletes the row If for the 1st time you have
loaded 10K rows and then again executed
the package by restricting the number of
rows to 3K the excel file will still contain
those 10K empty rows as it retains the
sheet along with the empty spaces You can
use script task to delete the sheet using
COM objects But for that you need
to"Converting TEXT that represents*

NEGATIVE Stack Overflow

May 2nd, 2020 - Excel doesn't handle time spans in cells. It only deals with time. When you do 00:07, it is then converted to 0:00:48.611, which is the same as Jan 1st 1900 12:07 am. So if you did 2 minutes minus 7 minutes, it would give at best 11:55pm. The way you do it is the only way.'

'Beginning Excel What If Data Analysis Tools by Paul

April 16th, 2020 - The only book on the market dedicated to the What If functions and tools built into Excel, which are key to many business analysis scenarios. Focused and to the point, where other Excel books force the reader to wade through 100s of pages of related information and miss hours of reading, this book gets straight to the topic of teaching the reader about What If scenario tools in Excel.'
