'Cretaceous

May 1st, 2020 - The Cretaceous is a geological period that lasted from about 145 to 66 million years ago. It is the third and final period of the Mesozoic Era. The name is derived from the Latin creta, chalk. It is usually abbreviated K for its German translation Kreide. The Cretaceous was a period with a relatively warm climate resulting in high *Publication Date 17 March 2016 YSPP*
