Vaccination against Salmonella Infection the Mucosal Way

May 4th, 2020 - SUMMARY Salmonella enterica subspecies enterica includes several serovars infecting both humans and other animals and leading to typhoid fever or gastroenteritis The high prevalence of associated morbidity and mortality together with an increased emergence of multidrug resistant strains is a current global health issue that has prompted the development of vaccination strategies that confer'

'Intestinal Lamina Propria CD4 T Cells Promote

March 28th, 2020 - The intestinal immune system is crucial for protection from pathogenic infection and maintenance of mucosal homeostasis We studied the intestinal immune microenvironment in a Salmonella enterica serovar Typhimurium intestinal infection mouse model Intestinal lamina propria macrophages are the main effector cells in innate resistance to intracellular microbial pathogens"Increased Dietary Vitamin D Suppresses Cancer Research

April 27th, 2020 - Epidemiologic studies associate low serum vitamin D levels with an increased risk of colon cancer and inflammatory diseases such as inflammatory bowel disease IBD 129 Smad3tm1Par J Smad3? ? mice are a model of bacteria driven colitis and colon cancer when infected with Helicobacter bilis H bilis Thus we used this mouse model to determine whether increased dietary vitamin D"Correlation of antinuclear antibody and anti double

April 28th, 2020 - The induction of antinuclear antibodies ANAs or anti double stranded ds DNA antibodies Abs after infliximab IFX therapy in rheumatoid arthritis RA is a well known phenomenon but the correlation of such Abs with the clinical response to IFX has not

yet been determined The aims of this retrospective observational study were to examine the prevalence of positive ANA and anti ds DNA'
