'Development economics Wikipedia

May 13th, 2018 - Development  
economics is a branch of economics  
which deals with economic aspects of  
the development process in low income  
countries Its focus is not only on  
methods of promoting economic  
development economic growth and  
structural change but also on  
improving the potential for the mass  
of the population for example through  
health education' '
