**'differences between a malignant and benign tumor**

**May 31st, 2020 -**

---

---

differences between  
benign and malignant  
tumors although there  
are exceptions for  
example although most  
malignant tumors grow  
rapidly and most  
benign ones do not  
there are examples of  
both slow growing  
cancerous tumors and  
non cancerous ones  
that grow quickly the  
main differences  
between the two types  
of tumors are clear  
and  
consistent ' 'malignant

definition and  
characteristics of  
malignant**

May 31st, 2020 -  
malignant conditions  
not all malignant  
conditions are  
cancerous for example  
the phrase malignant  
hypertension is used  
to describe blood  
pressure that is  
dangerously high but  
in this context it has  
nothing to do with  
cancer likewise the  
condition malignant  
hyperthermia describes  
an emergency situation  
in which a dangerously  
high fever develops  
during surgery with  
general anesthesia'
